

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

After conducting treatment and data analysis, the researcher concluded that picture card media could increase students' vocabulary enrichment. This can be seen from the results of the pre-test and post-test conducted by researchers after treatment using picture card media. The mean score of the pre-test  $O_1=32.83$  and the post-test  $O_2=44.5$ . The magnitude of the effect of treatment is 11.67. These data can be proven from hypothesis testing with the value of Sig. (2-tailed)  $0.00 < 0.05$  indicates a significant difference between the initial variable and the final variable. This means that  $H_0$  is rejected and  $H_a$  is accepted. It can be concluded that there is a significant difference between the classes before and after being given treatment. From the results of the study, the researchers concluded that there was an effect of picture card media to increase students' vocabulary enrichment in learning English in class VII students of SMPN 5 Kramatwatu in the 2021-2022 academic year.

#### B. Suggestions

##### 1. For school

Schools should be more supportive of teaching English learning, especially in vocabulary enrichment and schools should pay more attention to teachers to provide the media that students need to learn in a fun way.

##### 2. For Teacher

Teachers should improve their teaching of vocabulary enrichment, more exercises and exercises should be given to students to minimize their

problems in improving vocabulary enrichment. To improve English vocabulary enrichment, teachers must find other media to teach English vocabulary enrichment, therefore teachers must understand and have good skills in choosing media. The research also provides the best media for students in learning English, especially in increasing vocabulary enrichment.

### 3. For students

Students must realize that understanding the meaning of English vocabulary is very important. They need to practice and learn more about improving English vocabulary enrichment and they should be given a lot of practice to improve their vocabulary enrichment. Since language is a matter of habit, it is impossible to acquire it without practice.
