Nurul Azmi Agisni, 181230071. 2022. The Use of Duet Speaking Challenge Video to Improve Student Speaking Skill. (An Experimental Research at The Eight Grade of Mts Al-Insyirah Muncang lebak).

This research aims to find out the use of duet speaking challenge video to improve students speaking skill at the eight grade of Mts Al-Insyirah Muncang. This study was experimental research and using quasi experimental method, compare two classes from the eight grade of Mts Al-insyirah which is VIII A as experimental class, and VIII B as control class, the instrument of the research is using pre-test and post-test and collected score using scoring sheet to make sure that student speaking ability improvement in using duet speaking challenge video at the eight grade of Mts Al-Insyirah Muncang. The writer collected the data from 66 students in two classes from experimental class and control class, the result shows that duet speaking challenge video improved the students speaking ability, it can be seen from the score of experimental class the mean score of pre test is (45.48) and the score of post-test (74.36), hypothesis of t-test of both sample t-table with 5% significance level found (t_{table} 1.66) and with 1% significance level found (t_{table} 2.38). And the result is t_t on significance 5% = 1,66 and 1% = 2,38. It indicates that $t_o > t_t$ or $3.21 > 1,66$ and $3.21 > 2,38$ so the null hypothesis (H_o) are rejected and he alternative hypothesis (H_a) is accepted, from the increase in student abilities, it can be seen from the enthusiasm of student in participating in learning to speak English which is considered more fun and help student to improve their speaking skill by continuously interacting and exploring their own abilities using duet speaking challenge video.
