10	UKS room	-	-	-	-

D. Method Of The Research

In this study, the writer used a qualitative descriptive to do the research and he employed descriptive analysis to deliver the result of research. The data from the material are collected from libraries research and field research. In the library research the writer goes to some libraries to get some books, magazines and the other source which is related to the subject. In the field research the writer visits a school and has tried to observe the teaching learning process in that school, and do some interview some teacher to know how the strategy that used in teaching English and interview some students to know about how is their teacher's method or strategy in teaching English.

In addition, the writer will applied some tests to the student to know more their response too ward the teachers strategy in teaching English and its influence on their achievement in English learning.

E. The Participant

In this study, the writer would like to involve participant as the unit of analysis. There are some English teachers in Daarul Muftadiin boarding school as interviewee and the students of third grade X of MTS Daarul Muftadiin Jayanti Tangerang. The class consists of 25 students. The writer chooses them to be participants because they have skill better than the other.

F. Data Instrument

- a. Observation sheet
- b. Interview guide
- c. Questionnaire

G. Technique Of Data Collecting

One of important in this research is the collecting data, can determine the result of the research. The techniques of collecting data used in this research are:

1. Observation

The writer visited Daar Rul Mubtadiin Jayanti- Tangerang to search about something which is related to the subject in this research.

2. Interview

Interview is a form of verbal communication. This technique was done to get data and information from students and teachers, which are needed for this research.

3. Questionnaire

Questionnaire is several questions written that used to collect information from respondent it is mean the report about individuality or something was known. In this technique, the writer gave the test to the students, to know more about how is their response toward the teachers' strategy in teaching English.

H. Literature Review

In the preparation of this paper before the writer further research, then compile them into a scientific work, the initial step is to assess the travel writers to previous thesis concerning the same title as that will be the authors carefully, examine the intent of this is to be known the researched what is now not the same as previous studies of the thesis.

The following authors conducted a literature review, the authors finally found the thesis that raised about the management of Al Hidayah boarding school. The title is worked by Abdul Basit, Islam community development department of propaganda and communication with the faculty thesis title "MANAGEMENT PONDOK PESANTREN ALHIDAYAH RANGKASBITUNG" The discussion about the management of education boarding school, Al Hidayah Rangkas bitung, educational methods applied in boarding school Al-Hidayah Rangkas bitung.

The author also found the thesis made by Maryati by the title "SISTEM PENDIDIKAN PONDOK PESANTREN MODERN ", this thesis discusses the system of Daarul Ahsan boarding school in education system modern.

The author found the thesis also made by Saiful Alawi entitled "MANAGEMENT STRATEGYATNURUL HIDAYAH BOARDING SCHOOLOF IMPROVINGQUALITYSANTRI". This research discusses about the strategy of Nurul Hidayah boarding school in improve the quality of study

Unlike the case with the above thesis, that there search that I would do at the boarding school Darul Mubtadiin is intended to analyze the strategy of Pondok Pesantren Darul Mubtadiin In developing Students speaking skills.
