B. SUGGESTION

In this part the writer would like to contribute some suggestions for the considerations which are significant for the readers, and the other researchers.

1. For the students

The readers especially the students who are willing use this research for reference, hopefully:

- This research will be a contribution and an additional source about syntax which can give clear understanding in analyzing kinds of material especially in phrase.

- This research is able to assist English department students understanding and appreciating Linguistics field through it.
- The students can learn about syntax especially phrase not only from English book but the students also can learn from English song lyrics in movie.

2. For the teachers

The readers especially the teacher who are willing use this research for teaching, hopefully:

- The teachers can teach English syntax about phrase using English song lyrics.
- The teachers can use this research as inspiration to teach English using others media besides English book.
- The teachers can explain about syntax easily by using English song lyrics.

3. For the future researcher

The writer suggests to future researchers who are interested in conducting the same fields in syntax to:

- try to analyze syntax not only from English books but from others media.
- try to analyze about syntax in different context not only about phrase.
- get new findings of knowledge dealing with syntactic study.

The writer truly realizes that this thesis is still far from being perfect, so the constructive criticism and suggestions from the readers are expected to make it perfect. Hopefully it will be useful for the readers especially for the lecture and students of English Education Department of UIN Sultan Maulana Hasanuddin Banten. Finally the writer hopes that this thesis can be used as reference for those who are interested in studying syntactical study.
