

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

By using the R & D method, the researcher concluded that the Addie model with the booklet media, was very helpful for the third grade students of MTs daar et taqwa to understand English subjects. The data analysis of the booklet validation results is based on the average results of the validation results of two expert lecturers. Based on the data above, it can be seen that the overall average is 3.925 with good criteria. Then the booklet is declared valid and does not need to be revised.

Based on the results of the validation, it can be concluded that the English Booklet vocabulary for the third grade of SMP/MTs is valid and does not require a significant overhaul and is suitable for use as English teaching materials in schools. analysis of the booklet by providing response questionnaire for the students at the evaluation stage. Based on table 4.14, the practicality value is obtained with = 3.92 with good criteria and can be declared practical. Based on this, it can be said that the English booklet vocabulary is can used as one of the teaching materials for English lesson.

The effectiveness of the developed booklet can be seen from the average of student learning completeness. Mastery of student learning comes from the post-test scores conducted by researchers at the evaluation stage. Based on the student learning completeness is 3.92. This shows that learning by using booklets has fulfilled the effectiveness aspect.

Based on the analysis of the post-test results, it can be concluded that learn using booklets is effectively used as one of the English lesson teaching materials. Based on the results of the three analyzes above, it can be

concluded that the booklet is feasible to be used as teaching material that has valid, practical, and effective quality.

This can be proven by the results of the pre-test and post-test. That the mean score of the students' pre-test was 57.25 and the students' post-test results were 82.25. this value can be considered sufficient to be used as a reference that there is a significant increase that can be balanced from the results of student scores after using the booklet media, so the authors hope that this booklet media can be applied to make it easier for third grade students of MTs Daar et taqwa in mastering English subjects.

B. Suggestion

The researcher makes the following recommendations based on the research findings:

1. For teacher

The English booklet vocabulary can be used as a supplement to teaching materials in English. Complementary materials such as booklet will be chosen to aid students' understanding of English material. The teacher can assist the pupils in remembering the material from the booklet.

2. For students

It make easier for student to remember and understand the text of material for third grade.

3. For researcher

The findings of this study should provide information regarding learning media that students can utilize to increase their knowledge of English material and serve as a reference.
