ABSTRACT

Sopia Ranti. 181230037. 2023. The Influence of Reviewing Fantasy Movies on Students' Speaking Ability (An Experimental Study at The Eleventh Grade of SMAN 2 Kota Serang)

The aim of this study is to determine the influence of reviewing fantasy movies in increasing students' speaking ability at the eleventh grade of SMAN 2 Kota Serang. The study is conducted based on the problems: 1. How is the students' speaking ability at the eleventh grade of SMAN 2 Kota Serang before and after implementing reviewing fantasy movies technique? 2. How is the influence of reviewing fantasy movies on students' speaking ability at the eleventh grade of SMAN 2 Kota Serang? The researcher used experimental method and collected the data from 68 students who were divided into two classes, XI MIPA 6 as the experimental class and XI MIPA 5 as the control class. The data were collected using pre-test and post-test. The researcher then employed a t-test for analyzing the data. The result reveals that the average score of the pre-test in the experimental class is 53,8 and the average score of the post-test is 71,3. The outcome value of $t_{observation} (t_o) = 6,78$ is higher than the t-table (t_t) of significance 1% = $6,78 > 1,66$ and t-table (t_t) of significance 5% = $6,78 > 2,39$. As a result, the alternative hypothesis (H_a) is accepted and the null hypothesis (H_0) is rejected which means there is a significant influence of reviewing fantasy movies in increasing students' speaking ability.
