

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter the researcher provides conclusions and suggestions based on the results of the research, the conclusion contains a summary of the results of the research after the research is based on the research problem.

A. Conclusion

Based on the results of the research discussed in the previous chapter, the following conclusions can be drawn by researchers:

1. The strategy used by the two English teachers to overcome students' English-speaking anxiety outside the classroom is the same, namely using English Day and Exot (Examination Authority). Both of these strategies are driven by the teacher's strategy in the classroom, namely, Mrs. Pretty (pseudonym) used the Role Play strategy, the Conversation card game strategy, and the learnhip.com website strategy as supporting strategies. Meanwhile, Mrs. Beauty (pseudonym) used the Role Play strategy, Hot sheet and Presentation, and class rules as support.

B. Suggestion

The following are suggestions from researchers for schools, teachers, and other researchers.

1. For school

Suggestions for schools should further reinforce existing programs in schools so that they can run consistently and be obeyed by all school members. Hopefully, this suggestion can be useful for the progress of the school.

2. For English teachers/teachers

Suggestions for teachers to be even better in teaching, to be able to create better and more creative strategies, and hopefully these strategies can become a reference for other teachers.

3. For Researchers

The researcher hopes that other researchers can develop and apply the strategies that have been found. And hopefully, this research can be a useful reference and reading for other researchers.
