## ACKNOWLEDGMENT

*In the name of Allah, the Merciful, the Compassionate*

There are no valuable words to be said but all praises be to all praises to be Allah, the almighty God, who has sent Muhammad, Peace be upon him, to be his prophet and messenger for people all over the world. The writer realizes and feels very sure that without His blessing, mercy, and guidance, it would be possible for me myself to finish the paper.

Herewith I would like to express her profound gratitude, more than she can express, to Prof. Dr. H. Wawan Wahyudin, M.Pd., my first advisor, thank also go to Afif Suaidi, S.S., M.Hum., my second advisor, for the correction and invaluable criticism. In addition, also very much indebted to Dr. Anita, S.S., M.Pd., the head of the English Education Department. This thanks also goes to Fika Nurul Hanifia, M.Pd., who has been permitted to conduct research at SMAN 6 Kota Serang.

Last, but far from least, her very sincere thanks especially go to her own beloved parents, and all of those who have helped her, who are not mentioned personally here, without their patience, guidance, and cooperation this paper could never have been written.

## ABSTRACT

Indah Ainun Salsabila. SRN. 191230138. 2023. Enhancing Students' Pronunciation Ability Through the Dialogs of Aladdin Movie (*A Quasi-Experimental Research at the Eleventh Grade of SMAN 6 Kota Serang*).

In this study, the researcher aimed to incorporate watching an Aladdin movie into students' learning activities so that they could listen, simultaneously learn how to pronounce words or sentences spoken by native speakers, and determine how influential it might be. As a component of quantitative research, the study used experimental research that also used quasi-experimental research. This study was carried out at SMAN 6, which was in Serang, Banten. Students who are enrolled in research at SMAN 6 Kota Serang. Pre-test and post-test instruments are used in this study. The researcher used t-test to assess the data gathered from the pre-test and post-test of the study instrument. The result showed that the value of the t-count is greater than the t-table =  $2.25 > 2.021$  or  $t\text{-count} > t\text{-table}$ . It can be seen that there has been an enhancement in students' pronunciation through the dialog of the Aladdin movie. And student development is divided into four stages of development, once, twice, three times, and four times. This development is a change in pronunciation spoken by students during the study. Therefore, when students watch and listen to dialogues from the Aladdin movie, they can enhance their pronunciation skills following what they hear from the Aladdin movie media used during learning.

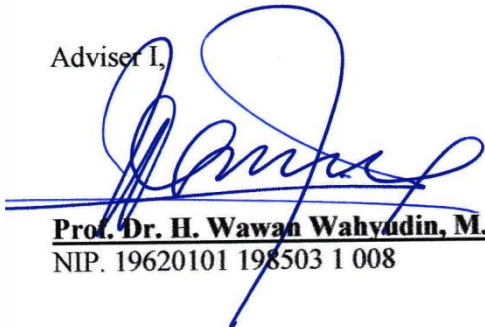

*Keywords: pronunciation development, movie, and aladdin.*
