ABSTRACT

Nurma Yunita. 191230004. 2023. Improving Speaking Skill by Using *Just A Minute* Technique (A Quasi-Experimental Research at Eleventh Grade of MA Muhammadiyah Kubangkondang, Pandeglang)

The aim of the study is to determine the students' improvement in speaking skill by using *Just A Minute* Technique. This research uses the Quasi-Experimental method with two classes as sample, namely class XI A as the experimental class, and class XI B as the control class. The researcher used pre-test and post-test as research instruments. Data analysis in this research uses t-test analysis. Based on the research results, the researcher found that the average pre-test score for the experimental class was 53.57 and the average post-test score was 70. Meanwhile, the average pre-test score for the control class was 56.42 and the average post-test 60.23. Based on the results of the t-test analysis, values were obtained $t_o (2,62) > t_t (1,68)$ in degree of significant 5% dan $t_o (2,62) > t_t (2,42)$ in degree of significant 1%. This means that the alternative hypothesis (h_a) is accepted and the null hypothesis (h_0) is rejected. In other words, it can be concluded that there is an increase in students' speaking abilities by using *Just A Minute* Technique.

Keywords: *Just A Minute Technique, Speaking Skill, a Quasi-Experimental*
