CHAPTER V
CONCLUSION AND SUGGESTION

A. CONCLUSION

Based on the results, the researcher answered questions from several questions from the statements of problem. The researcher aimed to obtain emperical evidence about the effectiveness of English conversation in youtube channel Englishclass101.com to improve students' speaking skill at the eleventh grade of SMAN 3 Kota Serang. The results of this study shows that the use of English conversation in youtube channel English Class101.com was effective for improve students' speaking skill.

1. The students' speaking skill before and after using English Conversation in youtube channel English Class101.com, It can be seen that the post-test average value of the experimental class is 70,2 and control class is 52.5. 70,2 is a good score based on scoring system, while 52 is a poor score. It means that after being given treatment at the experimental class, there is Significant difference in scores from the two classes. The experimental class gets higher score than the control class. The score indicated that the experimental class score was higher compared to the control class that was not given treatment (70,2>52.5).

2. The effectiveness of using English Conversation in youtube channel English Class101.Com to improve students' speaking skill. The t_o or t-observation value is 14,04 and the degree of freedom or df is 58, according to the calculation. Then, in the degree of significance 1% = 2.39, in the degree of significance 5% = 1.67, based on the t-table. The researcher then used t-table to compare the data in the degree of significance 1% and 5%, therefore, t_o:t_t = 14,04>2.39 in degree of significance 1% and t_o:t_t =

14,04>1.67 in degree of significance 5%. It signifies that the alternative hypothesis is accepted and null hypothesis is rejected for this outcome. it is also followed by the result analysis of the influence test on the experimental class of 77% r= 0.77 which means the correlation coefficient has a big effect.

Based on the information presented above, the researcher concludes that the use of English conversation in youtube channel English Class101.com has a significant effect to improve students' speaking skill at the eleventh grade of SMAN 3 Kota Serang.

B. SUGGESTION

After making conclusion in this research, the researcher tries to give several suggestions that might be useful for everyone especially for students, teachers and the researcher in the future, bellow are suggestions:

For students: The researcher hopes that all students especially eleventh grade of SMAN 3 Kota Serang should practice to speak English, as much as possible, such as practice to conversation about daily activities with their friends in class. The researcher hopes that the use of english conversation in youtube channel English Class101.com can make students enjoy in learning English and can motivate students to study hard.

For teacher: The teacher should be creative in teaching English to make the students more active and confident in speaking English, teacher might use another method in teaching speaking to increase students' speaking skill, one of them is using english conversation in youtube channel English Class101.com.

   For the researcher: The researcher hopes that this research might be useful to everyone, give some helpful information and it can be a reference to the next research. Besides that, the researcher hopes that this research can provide valuable experience for the researcher as a prospective educator.
