

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the research problem about “Utilizing of Stick Puppet Media to Improve Students’ Speaking Skills (A Classroom Action Research at the Seventh Grade of MTs Satu Atap Hidayatul Athfal Kota Serang)” the research describes the conclusion as follows:

1. In general, the real condition of students at Seventh Grade of MTs. Satu Atap Hidayatul Athfal Kota Serang is good. It is evident from their speaking score that just six out of the 39 students in the pre-cycle passed the KKM. of the 39 students in cycle I, 24 students received a score of 70 or passed the KKM. Of the 39 students in cycle II, 34 students received a KKM.
2. The use of hand puppet media in its implementation is carried out in several steps starting from the beginning of the activity that is prepare books, pens, materials for making stick puppets and working on students worksheets, until the end of the activity that is researcher provides reinforcement and moral messages and asks the students' feelings for the day and these steps are in line with the opinions of Soeparno and Yunita.
3. Researchers came to the conclusion that stick puppet media can enhance students' speaking abilities based on the results of students who progress from pre-cycle to cycle I and cycle I to cycle II. The students loved the stick puppet media, based on their responses to teaching and learning activities during classroom action research. Their involvement in class, during discussions, while performing in

front of the class, and their pronunciation, vocabulary, grammar, fluency, and comprehension all serve as evidence of this.

B. Suggestion

After performing the study and using the findings above, the researcher wants to make some recommendations that might be more beneficial for the teacher as a practitioner, for the students as learners, and for the school as a source of knowledge.

For Students'

To become proficient in English, students are advised to grasp not just vocabulary but also grammar and pronunciation. They are also advised to practice speaking more to advance their speaking abilities.

For Teachers:

The researcher makes the suggestion that teachers of English should learn more about how to improve their ability to teach English and to create a positive learning environment in the classroom in order to help students feel happy and enthusiastic about learning English. Based on the study's findings, stick puppet media was effective in helping students improve their speaking skills. The teacher should also be knowledgeable about the many media and teaching methods that might help pupils become better communicators.

For School:

The researcher advises schools to incorporate resources that can help teachers and students both learn and teach more effectively.

The English instructor in particular has to learn more about how to improve their English teaching skills and create a positive learning environment so that the students are motivated and delighted to study the language.
