ABSTRACT

Tita Maryani, SRN: 122301352 , *A Comparative analysis of Speaking Achievement Between Sanguine and Phlegmatic Personality.(A Comparative Study at Second Grade Student's senior High School SMAN 6 Kota Serang)*

This research is generally attempted to know and describe the differences between Sanguine student and Phlegmatic student in their achievement in speaking skill at Second Grade Student's Senior High School SMAN 6 Kota Serang. This research conducted based on the main problem. 1) How is the student ability in speaking English? 2) What are differences between sanguine and phlegmatic on speaking achievement? 3) How is the comparison of the achievement between sanguine and phlegmatic personality? And the aims of this research are; to find out the student's ability in their speaking and to know the differences between sanguine and phlegmatic personality on speaking achievement.

The method use in this research is quantitative research and comparative analysis technique. This research is started by collecting theory. After giving the students personality test taken from standardized test by Florence Littauer and then classifying the sanguine and phlegmatic student. Then, the researcher is classifying students' personality and give the test for comparing both personality with their speaking score achievement. In analyzing the data, first step is finding average of sanguine and phlegmatic student's speaking score and deviation standard to do homogeneity test. After doing homogeneity test, t-test is used to prove the significant data. And the last step to do is answering hypothesis of the research. The result of analysis data between variable X_1 and X_2 using t-test formula showed that the value of t_o (t-observation) was 17.09. In the t-table, score degree of freedom of 5% is 2.04 and score degree of freedom 2.81. It can be conclude that t_o is higher than t-table ($2.04 < 17.09 > 2.81$). Based on statistic calculation, it could be conclude that sanguine and phlegmatic students have different in English speaking skill achievement.

THE ADVISERS' APPROVAL

This is to certify that the undergraduate research paper of **Tita Maryani** entitled “**A Comparative Analysis of Speaking Achievement Between Sanguine and Phlegmatic Personality**” has been approved by the research paper advisors for further approval by the Board of Examiners.

DEDICATION

This is paper dedicated to my beloved parents, Yusup S.pd,SD and Yayah Suhayah, Thanks for all sacrifice, love, prayers, motivation and advices.

For my beloved brother Irfan Fauzi and my sisters (Eka Rifda Faricha and Tika Solihat) thanks for your support and motivation, and thanks for my beloved friends Nani Selpiah, Siti Ana Rihana, Pipih Maesaroh, Evi Muflihah, and all of member TBI E 2012 and all family that be mentioned here and by one. Thanks for supported, help, time, and many other things.

MOTTO

O you who have believed, when you are told “space yourselves” in assemblies, then make space; Allah will make space for you. And when you are told, “Arise,” then arise; Allah will raise those who have believed among you and those who were given knowledge, by degrees. And Allah is acquainted with what you do.

(Al- Mujadalah : 11)

A BRIEF BIOGRAPHY

The writer Tita Maryani was born in Pandeglang on 29st of June 1993. She is the second daughter, out of four, of Mr. Yusup and Mrs. Yayah Suhayah. She had an old brother, his name is Irfan Fauzi and young sisters are Eka Rifda Faricha, and Tika Solihat.
