

CHAPTER V CONCLUSION AND SUGGESTION

A. Conclusion

In this chapter, the writer would like to conclude of the research based on data obtained and the hypothesis submitted at the previous chapter as follow:

1. Before the writer gave treatment both of control class and experimental class, the writer got mean score from control class 4,1 and experimental class 7,25. It means the student's vocabulary mastery in MA Ashhabul Maimanah Susukan Tirtayasa Serang still poor.
2. Authentic material applied at the tenth grade of MA Ashhabul Maimanah by give practice and more emphasize the students to experience increasing vocabulary (using brochure).
3. Based on the research presented in the previous chapter that teaching using authentic material for improving students' vocabulary mastery at the ten grade of Islamic Senior High School of Ashhabul Maimanah Susukan Tirtayasa Serang in fact of the field have significant effectiveness. It can be seen from the test (pre test and post test either for control or experiment class) and hypothesis testing that all of the t -test (the control class t -test is 8,37, and the experiment class t -test is 4,19) is greater than t -table. $Df = n-1$ ($40-1=39$) is 2,02. So, there is an effectiveness of authentic material for improving students' vocabulary mastery.

B. Suggestion

Based on the result of the research, the writer would like to give some suggestions as a feedback of the research as follow:

1. The English teacher should help the students to increase the students' vocabulary mastery by using authentic material such as newspaper, brochure, CD, etc.
2. The students who got lower score as the result of the test than the average, they must be given more motivation and exercises.
3. The English teacher must use the English language when he/she teaching the material in the classroom.
