

## **CHAPTER V**

### **CONCLUSION**

#### **A. Conclusion**

Of the eight types of translation methods based on Newmark theory (1988), the results of data analysis in this study found 8 types of translation methods in the webtoon *Girls World* by Morangg with data as many as 149 sentences. These methods are Word for word Translation as many as 2 sentences, Literal Translation as many as 50 sentences, Faithful Translation as many as 3 sentences, Semantic Translation as many as 11 sentences, Adaptation Translation as many as 13 sentences, Free Translation as many as 60 sentences, Idiomatic Translation as many as 8 sentences, and Communicative Translation as many as 2 sentences.

#### **B. Suggestions**

The researcher would like to propose some suggestions for future research based on the above

statement, especially for students in the English department, the general public, and translators who want to translate Indonesian works into English. They must understand and master the basic principles of translation, especially translation methods.

Next, the translator should consider the following recommendations:

1. They should be more careful when using translation methods to produce better translations.
2. They should choose the closest and most appropriate approach to translating the content so that the translation results are understandable.
3. The researcher hope that the findings of this study will provide useful information and insights about translation, particularly translation methods..
