ABSTRACT

This research entitled: **"IMPROVING STUDENTS' WRITING DESCRIPTIVE TEXT THROUGH COMIC STRIPS (A Classroom Action Research at the Eight Grade of MTsN Ciwandan)"**, the research is conducted based on the objectives of research: 1) to know the students' skills in writing descriptive text 2) to know the effectiveness of comic strips in writing descriptive text 3) to know the comic strips applied in writing descriptive text.

The method in this research is CAR (Classroom Action Research) which uses cycle model as follow: plan, action, observation, and reflection. For doing this research the writer has chosen eight grade classes for population which consist of about 67 students, for sample it will choose one class, it is class eight-A of MTsN Ciwandan which consist of 33 students. The writer conducted this research from 02 to 19 March 2015.

From two cycles of classroom action research conducted, the writer concludes that in cycle one the writer found that the minimum score is 50, maximum score is 75, and the average score is 63,93. It means that the students' score is still low in writing descriptive. There are some students who can't achieve the target score of standard criteria minimum.

In cycle two, the writer revised the lesson plan and set the new design of learning scenario in the class. Besides, the writer reselected the more attractive topic from the text book and explained more clearly about the writing descriptive text. In cycle two, the writer found that the minimum score is 65, maximum score is 80, and average score is 70,90.

The result of this research is that there is improvement of writing descriptive text in every cycle by using planned technique: using comic strips technique can improve students' writing descriptive text. Although, there are some students who are weak in writing, but most of them are good.
