Teaching Record

Teacher Name: Ajeng Hestiningtias		
Date: 14/08/2024	Grade: Grade 5	Material Needed: Laptop
Unit/Topic: What Do You Want to Be?	By the end of the lesson, students will be able to: 1. Say the names of jobs in English with correct pronunciation. 2. Use the question and answer pattern: <i>“What do you want to be?” – “I want to be a...”</i> 3. Say their dream job confidently in English.	

Main content:**Opening**

I greet the students with a smile and start the class with a friendly conversation. To introduce the topic, I ask them, “What do you want to be?” and give them time to think or answer. Then, I tell the class that today we are going to learn about different jobs and practice how to talk about our dreams using English.

Main Activity

I begin by showing pictures of different jobs on my laptop. I ask the students, “Do you know what job this is?” If someone gives the correct answer, I write the word on the board. Then, I say the word clearly and ask the class to repeat after me. We keep doing this until we have 9 job words written on the board: teacher, doctor, lawyer, nurse, pilot, cashier, driver, banker, and dentist. After that, we practice saying all the words together to help with pronunciation. Next, I write the question “What do you want to be?” on the board and give an example: “I want to be a doctor.” The students then work in pairs to ask and answer using the same pattern.

After that, I open a Wordwall game (like matching or quiz) and we play it together as a class. While they’re playing, I observe to see how well they understand the vocabulary.

Closing

I help the students review the job words and the sentence, “I want to be a...”. Then, I ask each student to say one job they want to be. I say “Good job!” or “Well done!” to make them feel happy and confident. At the end, I smile and say goodbye to close the class.

Assessment: Assessment is done during the class using oral and performance-based methods. The teacher listens to how students pronounce the words and how they answer the question “*What do you want to be?*”. During pair work and the Wordwall game, the teacher observes students’ participation and

understanding. The final activity, where each student says their dream job, is also used to check if they can apply the lesson correctly and confidently.
