#### A. Conclusion

The researcher intends to conclude this paper after conducting the research with the result presented above.

1. Before conducting the research, the researcher have an interview with the teacher and students about the problem that faced by the students. The result from the interview was the students have a lack of vocabulary, they feel shy to speak English language, they cannot speak English fluently. But after doing this researcher we can see that the aspects; accent, grammar, vocabulary, fluency, and comprehension was improved from the cycle one to cycle three in each aspects.
2. The students looked interesting and enthusiasm in learning English using series of pictures. But the students' motivation in speaking English was still low because they were not confident to speak English language, they were shy and afraid to get wrong of what they speak.
3. The researcher concluded this research after conducting the series of pictures media, the students' achievement was improved. However, before the researcher conducting the research, the students' achievement was under the standard. It can be seen from the result of the students' test, in the first cycle, the highest score was 67, the lowest score was 51,

and the average score was 59.45. In the second cycle, the highest score was 76, the lowest score was 54, and the average score was 65.05. In the last cycle, the highest score was 81, the lowest score was 64, and the average score was 70.75. It showed the significant improvement of students' speaking ability by using series of pictures in every cycle.

## **B. Suggestion**

The researcher intends to offer some suggestion which may be useful for the teacher as the practitioner, for the student as learner and for school as place to get the knowledge.

### **For students:**

1. The students are suggested to master not only the vocabularies and grammar, but also be more confidence to speak to improve their speaking ability, and do not afraid to get wrong in grammar while speaking.
2. The students should practice more in speaking English.

### **For teachers:**

1. The English teachers should learn how to enhance their abilities in teaching speaking and to create an interesting atmosphere in the class, so that the students will feel enjoy and enthusiastic in learning English.
2. The teachers should have interested games and media for learning, so the students will not get bored.
3. The teachers should give more practical exercise concerning with speaking to improve students' speaking ability. It is

suggested to make any practical that will encourage the students to speak.

**For school:**

The researcher suggested that the headmaster should add the teaching aid that can support the improvement of students and teachers in teaching learning process, especially the existence of technology media which becomes the sophisticated facilitator for students to learning a language, especially English.
