

CHAPTER IV

RESEARCH FINDING

A. The Description of Data

In this chapter, the writer would like to present result the description of data collection of the research. Data of the research was taken from observation and the students' test result. These observations carried out to know the students' error of writing in the descriptive text.

The population of this study was taken from a first grade of SMAN 1 Baros consist of 20 students as participant. In addition, the writer also conducted an interview to the students consist 5 students and English teacher to get more details data.

1. The Result of Data Test

To know the result of the test of students', the writer made a table and a graphic of students' error in descriptive text writing that is taken from the data analysis.

In the table bellow is the recapitulation of students' error classified on the classification of error, which are made by students'.

Table 4.1 :**The Recapitulation of students' Error**

No	Students Initial	Classification of Error				Total Error
		Omission	Addition	Selection	Ordering	
1	Ac	1		3		4
2	Am	4	4	4	3	15
3	AK		1	3	2	6
4	AR	5	2	3		10
5	DS	1	8	5		14
6	EK	1		4	1	6
7	Fi	1		4		5
8	FM	2	3	1	2	8
9	It	2	1			3
10	Ju		2	6	1	9
11	LS	1	2	6	1	10
12	Mi	2	3	4	1	10
13	Nu	1	1	2	1	5
14	NA	3	2	3		8

15	NK	3		2	1	6
16	PR	1	2	7	1	11
17	RN	1	1	4	1	7
18	SH	1	1	3	1	6
19	SN	3	2	3		8
20	VS	3	3	5	1	12
Total		36	38	72	17	163
Percentage		22,08 %	23,31 %	44,17 %	10,42 %	100 %

Based on the table data of recapitulation students' error on descriptive text writing above, the writer concluded that the score of error was made by all of students' at first grade of SMAN 1 Baros is so high. The classification of error are four aspects, they are; Omission, Addition, Selection, and Ordering. The following score of error obtained by each aspect Omission: 36 (22,08 %), Addition: 38 (23,31 %), Selection: 72 (44,71 %), and Ordering: 17 (10,42 %).

2. Interview

In this case, the writer conducted the interview to the students consist of 5 students and English teachers'. From the result of the students' interview and English teachers', the writer could describe and identify the perception of students' and teacher on error of descriptive text writing.

a. The English Teachers' Interview

In the English teachers' interview, the writer submitted some of questions which related to the research. In the stage, the writer would explain the result of interview which tended to teachers' perception of students' on error of descriptive text writing.

From all the questions that purposed to the teacher, the writer concluded that according to the teacher's opinion that the students' still do not understand fully formation of writing. In

fact they are confused in understanding on presenting words to sentences, especially still lack of vocabulary. So that when studying about writing material many error on writing of descriptive text made by students’.

b. The Students Interview

In the students’ interview, the writer interview of students’ consist 5 students’ at first grade to get information about the students’ of error on descriptive text writing. The writer will conclude from all of the answers obtained from the students’.

From 5 of students’, only 2 students’ who feel happy to learn English, 3 others feeling less to learn it, and most all of the students’ still find it difficult to understand the material about writing and the reason was almost the same, because

they lack of the vocabulary and confused in presenting words on writing, they assumed that memorize the vocabulary is so difficult, and also to select the word in present sequence sentence, which include formation writing.

B. The Analysis of Data

The score of the test by counting on percentage according to the formula that processing technique the formula of data, the writer uses is descriptive analysis technique (percentage), with the percentage from the frequency of information and divided with number of cases.

1. Classification of Error and Their Reconstruction

in the bellow, the writer decribed each students' error in the writing text, classified them into four aspects, namely the omission, addition, selection, and ordering, and the correction of writing composition students'. The writer divides each table into three column: the first column consist of

students' original writing, and the second column is the reconstruction of the writing made by the writer based on writing text rules, and the third column is the score how many total students' error hade made every aspects.

Classification of Error			
Omission	Addition	Selection	Ordering
3	3	5	1

2. Graphic of Students' Error

Figure 4.1 : Graphic of Students' Error

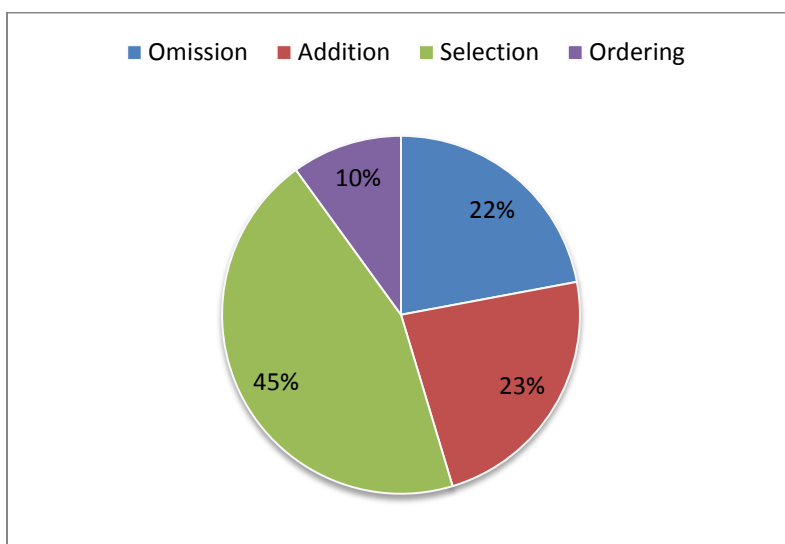

Based on graphic is clearly that the difference in the number of error made by the students'. The level of errors made by students' in the Selection aspect is very high compared to others, especially when compared to the Ordering, the level difference errors is so far, while the Addition and also Omission it same in the centre. In fact, the level of difficulties of the most difficult for students' is on aspect selection, because of difficulties still lack of the

vocabulary and confused selecting words in present sequence sentence, include formation on writing.

3. Diagram Percentage Classification of Error

Figure 4.2 :

Diagram Percentage Classification of Error

Based on diagram, the first highest error rate occurred on Selection reach to 44,71% and be rounded to 45%, and the second highest error rate is Addition reach to 23,31% and be rounded to 23%, the third highest error rate is Omission reach to 22,08% and be rounded to 22%, and the last error rate is Ordering and be rounded to 10,42% but

in fact when it rounded, the percentage is only difference 1% and the percentage of ordering is 10%.

C. The Analysis of Classification of Error and Causes

After identifying each students' error, the writer would like to analyse the students' error in their writing based on their classification of error, they are:

1. Omission

Error of Omission are characterized by the absence of an item that must appear in well-formed utterance although any morpheme any morpheme or word in sentence is potential candidate for omission. In this case, there were 36 errors (22,08 %).

2. Addition

Error of Addition is a type of error which must not appear in a well-formed utterance. Students feel confused with formulas of tenses, and then sometimes when they construct passive voice to active voice sentence they add the word that which

must not appear. In this case, there were 38 errors (23,31 %).

3. Selection

Error of Selection are characterized by the use of the wrong form of the morpheme. Students still can not distinguish which are regular verb and irregular, which are present tense and past tense, and which are subject and object. In this case, there were 72 errors (44,71 %).

4. Ordering

Error of Ordering is incorrect placement of a morpheme or group. Sometimes, students made mistakes in drafting the word or a group of word that whereas to draft the word and group of word in English and Indonesia is different. In this case, there were 17 errors (10,42 %).
