

ABSTRACT

Name: DesiSafitri, NIM: 133300389, Thesis Title: The Role of Families in Fostering Youth. (Case Study in Beberan Village, Ciruas District, Serang Regency) Department of Communication and Islamic Broadcasting, Da'wah Faculty in 2018.

Family is the first and foremost place where children learn. From the family, they study the nature of beliefs, noble qualities, communication, and social interactions, as well as life skills.

Based on the background above, the formulation of the problem in this study are: 1). How is the family upbringing in KampungBeberan, Ciruas District? 2). What values are instilled by parents in educating children?

This study aims to find out: 1) To find out family upbringing in several villages in the ciruas sub-district? 2). To find out what values are instilled by parents in educating children?

In this study the authors used a descriptive method of descriptive research that is by describing the subject and object of research based on the facts that exist. While the data collection using observation, interviews, and documentation.

Based on the research that has been done, it can be concluded that: The role of the family towards adolescents in several villages is to supervise, guide, and give advice to adolescents and provide religious values in the family environment and instruct children to socialize in the community. and limit the association of the child.

In religious children's education in several villages, some respondents think that in terms of providing children with religious education from an early age, equip values related to religion. So that teenagers do not negative things. It all depends on how the parents how to educate their children. Where the family is required to provide guidance, invite in matters of kindness, giving direction to children, giving trust especially giving attention and love

to their. Making a child remain firm in his stance and not easily shaken against all negative temptations. With religious knowledge possessed, children can choose which ones are good and bad, right or wrong in getting along and socializing. Today, many children, especially teenagers, do not understand the science of religious education as a whole so many of them lose control of themselves in their social environment.
