

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusions

Based on the research, entitled “Using Picture Series in teaching procedure text writing in MTs Al-Khairiyah Tambang Ayam Anyer Serang-Banten, the researcher can conclude:

1. The students’ writing procedure text in the first grade at MTs Al-Khairiyah Tambang Ayam Anyer before given the treatment are low. It can be seen from the data showed that the mean of pre-test scores obtained by experimental class is 38,72 and the mean of pre-test scores obtained by control class is 38,17 .After given the treatment, the mean of post-test score of experimental class is 71,6 was greater than control class is 53.43.
2. There was effective of using Picture Series in teaching procedure text writing it can be seen from the result of the research show that the hypothesis, that the null hypothesis is rejected its shown fromg statistical value that significant 5% = 2,01 and significant of 1% = 2,68 and the result of $t_0 = 10,3$. It means $2,01 < 2,57 > 2,68$ the alternative hypothesis of the research is accepted. So based on calculating the data of t-test that the effectiveness of using Picture Series in teaching procedure text writing has positive effect.

B. Suggestions

With the presented conclusion, several suggestions for increasing procedure text writing, there are:
