

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the research findings that presented in the previous chapter, the researcher would like to give conclusion as follow:

1. The application of using Group Investigation strategy in teaching reading comprehension applied well because the explanation in the score of 4,25 and 4, which category is good.
2. Based on the result of the analysis about using Group Investigation strategy, the distribution of score in experiment class was bigger than the control class. The result of t-test shows that $t_o:t_t = 5,31 > 2,00$, in the degree of significance 5% and $t_o:t_t = 5,31 > 2,66$ in the degree of significance 1% so that H_1 (alternative hypothesis) of the result is accepted and H_o (null hypothesis) is rejected. It means that using Group Investigation strategy give significant influence on the teaching reading comprehension.

B. Suggestions

According to the conclusions above, the writer would give some suggestions as follows:

1. For the teachers

The teacher should be creative in developing English learning process in the classroom in order to make students interested and mastery the material

well. Using good strategy can improve the students' comprehension in learning English especially descriptive text.

2. For the next researcher

It is suggested to other researchers to complete this research by conducting any other research by using strategy in learning process. The researcher would like to suggest that the result of the study can be used as an additional reference for further research with different sample and occasions.
