

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

After analyzing data the researcher concludes that the result of this study can be described. Before given the treatment to the students' writing descriptive text at grade X at MA Al-Hasyimiyah was low under the score 32.2, while the students' score after given the treatment was high under the score 78.95. There was the effectiveness of wappad media in improving students writing a descriptive text. The result shows that the value of t_o 2.56 it was higher than the value of t_{table} is 2.02, the level significance was 5%. It means H_a (alternative hypothesis) of the result was accepted. Therefore, wappad media was effective in improving students' writing descriptive text at the Tenth Grade of MA Al-Hasyimiyah.

B. Suggestions

Based on conclusion above, it can be delivered some suggestions that might be useful. The suggestion for the teacher and students as follows:

For teachers:

1. In studying writing descriptive text at the classroom, the teacher is hoped more creative in teaching students to increase teaching learning process.

2. The teacher should be able to use various and interesting strategy in teaching writing skill. One of them is using watsapp media.
3. This strategy can be alternative technique for the teacher to make students become active and increase students' writing descriptive text score.

For students:

1. The students should practice a lot of writing English in order to increase their knowledge and information.
2. The students are suggested to practice their writing descriptive text using watsapp media.
3. This technique gives students opportunity to think critically and also become more active.
