

CHAPTER V

CONCLUSION AND SEGGESTION

A. Conclusions

After conducting research about “ Teaching Procedure Text Writing By Using Tutorial Video At the second grade of MTsN 5 Serang”, the writer conclude that :

1. The students writing ability at the second grade of MTsN 5 Serang before given the treatment are low. It can be seen from the result of pre test at experimental class, the lowest score was 40. And the highest was 68 and students mean score was 47,7 The result of pre-test at control class, the lowest score was 49 and the highst score was 72 and students mean score was 59,46.
2. The effectiveness of tutorial video in teaching writing on procedure text is great, it can be seen from the result of post-test was higher than student pre-test. The students lowest score of post-test that at experimental class 52 and the highest is 84 and student mean score was 68,2. The result of post-test at control class, the lowest score is 64 and the highst score is 80 and

students mean score is 72,4. The result of the data calculation it shown t-table of 5% and 1% were significant, $2,00 < 3,6 > 2,66$.

B. Suggestion

The researcher wants to give the following suggestions based the conclusion above :

1. Choosing technique in teaching English was very important because some people consider that learning English was difficult, for the teacher they must have appropriate method in English.
2. The teacher may uses creative and interesting technique in the process of teaching. Especially in writing skill activity in order to encourage motivate students to have more practice in writing skill.
3. For the students, study hard and practice more in writing English.
