

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

After conducting the result and calculating the data, conclusion could be stated that it was effective of using pictures on student writing of recount text. It could be seen from the average of post-test result in experimental class was 80.47 and the average of gained score was 18.47. The average of post-test result in controlled class was 67.29 and the average of gained score was 11.70

Statistically, it was proven that in significance degree of 5% is $1.60 < 1.83 > 0.32$ It mean that t_0 (t observation) was higher that t_t (t table). So the null hypothesis (H_0) was rejected. The answer of research problem was proven that there was effectiveness of using pictures on students writing of recount text, where there is significant progress in students recount writing.

Students wrting of recount text got higher score if students used pictures to help them in writing as it can help to build their ideas. Students who did not receive treatment got lower score that students who received treatment.

B. Suggestion

The result this study showed that it is effective to be applied in teaching and learning process. After the writer conducted the research, suggestion could be appeared related to research findings and discussion. The point are:

1. Students should use picture to help them improve language skills as picture has so many advantages.
2. Students who have skill in drawing can use it to improve language skills, such as writing, so that they can increase their writing ability, especially for academic purposes in school.
3. The teacher should developed students idea by using picture (or other media) and make it come easier when students should write. By using picture – in this case students photo, their memory will appear about what to write.
4. The teachers should motivate students to developed their writing by using media, and the simples one is picture, because it makes students visualization refreshed. So, they do not only see their writing but also picture as their loot for writing recount text.
