

CHAPTER V

CONCLUSION AND SUGESTION

A. Conclusion

The research and discussion that has been done, it can be concluded that The Animated Youtube Video can improve students' writing skill of grade XI Bahasa of MAN 2 Kota Serang. The research with the results presented above, the researcher intends to conclude this paper :

1. The students writing skill at XI Bahasa grade of MAN 2 Kota Serang was under standard before the researcher conducting the research. However, after conducting this research explanation text by using Animated Youtube Video in writing was improved. It can be seen from the test result.

2. The researcher concluded that after using Youtube Animated Video for writing ability was improved. It can be seen the average of the resulting test of cycle II is 80

it shows the average value increased compared to the average of the cycle I of 72. Students who achieved KKM score in Cycle II were 26 students or 87 % while students who achieve KKM score on pre-action were 7 students or 23 % and in cycle I were 16 students or 53

% thus it can be concluded that in cycle II the average score of writing students' understanding of grade XI Bahasa of MAN 2 Kota Serang increased.

B. Suggestion

Based on the conclusion above the researcher intends to offer some suggestions which may be more useful for the teacher as practitioners and the students as learners.

1. For the teacher

a. Use Youtube Animated Video on writing skills and make a cozy learning situation for the students to be interesting and not easy being bored in learning writing.

b. Modify carefree learning for creating a fun learning environment for students.

c. Improve the quality of learning by using maximally media and learning method.

2. For the students

a. Youtube Animated Video can help students to create content in making explanation text, to enhance vocabulary, to understand the grammar by seeing the subtitle in the video. It can make the creativity of thinking increased.

b. The students should try to practice more in explanation text using Youtube Animated Video in the class and home to improve their ability in writing.

However, the researcher found several obstacles during this research , such as:

1. The observations conducted in the last session of the day. It makes the remaining time less than it should because it is cut off by the ashar prayer. Therefore the observer has difficulty in maximizing the time.
2. There are several media that resercher use in this research such as laptop, infocus, speakers. The researcher have to arrange the right time to prepare everything so that the research session can be used as well as possible.
3. The selection of material that attracts students' enthusiasm is a difficulty that researchers faced because to choose the material it is necessary to do a more approach to each student. And the resercher should think wisely to choose appropriate topic at that time.
