ACKNOWLEDGEMENT

In the name of Allah, the most Merciful, the most Gracious, and the most Compassionate.

There is no valuable words to be said but all praises be to Allah, the almighty God, who has sent Muhammad, peace be upon him, to be His prophet and messenger for people all over the world. The writer realizes and feels very sure that without His blessing, mercy, and guidance, it would be possible for the researcher to finish the paper.

Herewith I would like to express the researcher profound gratitude, more than she can express, to Dr. Hj. Anita, S.S., M.Pd., my first advisor, thanks also go to Kheryadi, M.Pd., my second advisor, for the correction and invaluable criticism. In addition, also very much indebted to Dr. H. Abdul Muin, S.Ag., M.M. the head of the English Education Department. This thanks also go to Endah Yuniartiah, M.Pd., who always guide the researcher to conducted data in SMAN 1 Pandeglang.

Last but far from least, her very sincere thanks especially go to her own beloved parents, and all of those who have helped her, who are not mentioned personally here, without their patience, guidance, and cooperation this thesis could never been written.

ABSTRACT

Nurbayti. SRN.161230093. 2020. "The Effect of Using Metacognitive Strategies on Writing Recount Text (*A Quasi Experimental Research in the First Grade of SMAN 1 Pandeglang*)

This research aimed at investigating the effect of using metacognitive strategies on the writing recount text in first grade of SMAN 1 Pandeglang. The formulated problems of this research are: 1) How is the students' ability in writing recount text? and 2) How does the effect of using metacognitive strategies in writing recount text? This research was conducted through quantitative research. The type of the research is a quasi-experimental research. The instruments used in this research are pre-test and post-test. To fulfil the purpose of this research, the researcher took 64 students in first grade as respondents. Then they divided into two groups, experimental and control. In the process of treatment, the experimental group received metacognitive strategies training, while the control group received the conventional teaching strategy. At the end, the post-test was administered to both groups. The result of the study revealed that the students in experimental group did statistically better in their post-test. Based on the result of the research, it can be concluded that metacognitive strategy has good effect on the teaching writing of recount text.
