

## **BAB V**

### **RESULT AND SUGESSTION**

#### **A. Result**

Based on the results of the analysis and discussion of the data, the authors get conclusions that can be drawn from research on Developing Teaching Materials Using Vlog Media To Enhance Speaking Skills;

1. The results of this study indicate that 65.35% of the feasibility of the product from two experts in developing teaching materials using vlog media to improve speaking skills in the good category, which means the product is valid and suitable for use in the process of learning activities in class and it can be concluded that This product is effective, effecient and attractive.
2. The results of the product success test show that 76,73% is the response of students. This means that the product development of teaching materials using vlog media to improve speaking skills has a good impact on students so that students are able to improve their speaking abilities.

## **B. Suggestion**

The expected benefits of the results of this study include ;

1. For the readers, the results of this study are expected to be able to broaden the knowledge of science, especially in teaching materials that are developed using vlog media.
2. For teachers, it is hoped that this research product can be used in teaching and learning activities in class or can even create their own teaching material using vlogs so that students get a new and enjoyable learning atmosphere.
3. For the next researcher, it is hoped that the research can be continued by developing new teaching materials using vlog media or the next researcher can examine the correlation of learning using vlog media by learning to use book media
