ABSTRACT

Moh. Eka Hilmi Abrori. 132301531. 2019. *The Effectiveness of Elicitation Technique in Teaching Writing on descriptive Text (An Experimental Research at the second grade of MA. Al-Mumtaz Pulosari-Pandeglang.*

The Research is conducted based on the main problem 1) how is the students' writing ability at MA. Al-Mumtaz Pulosari-Pandeglang? 2) How is the effectiveness of elicitation technique in teaching writing on descriptive text? To answer the question, the researcher used quantitative research by implementing quasi experimental design as the research method. The population of this study was the students of the second grade of MA. Al-Mumtaz Pulosari-Pandeglang. The sample was divided into two groups, namely control group and experimental group. There were 30 students in control group and 30 students in experimental group. The experimental group was taught by using Elicitation Technique and control group was taught without using Elicitation Technique. After conducting the treatments and evaluating both pre-test and post-test have given, the researcher found that there was significant influence of using Elicitation Technique to improve writing skill. After collecting and calculating the data, the value of the result of t-test shows that $t_o:t_t = 2,94 > 1,67$, in degree of significance 5% and $t_o:t_t = 2,94 > 2,39$ in degree of significance 1% so that H_a (alternative hypothesis) of the result is accepted and H_o (null hypothesis) is rejected. It means that Using Elicitation Technique has significant influence on teaching writing descriptive stext.

Keyword: *Elicitation technique, experiment, writing,*
