

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **A. Conclusion**

After obtaining the data, the authors make conclusions in this chapter to clarify the answers to the research questions. The conclusions of this study are as follows:

1. Considering the first research question in this research is what directive speech acts are contained in the Aladdin film script?. From this film the writer found 30 sentences of directive speech acts which were divided into four types. The first type is orders that have 15 data with a 50 percent proportion, the second type of request has 9 data with a 30 percent proportion, the third has 4 data with a 13 percent proportion and the last type of order has 2 data with a 7 percent proportion.
2. The second problem in this research is what is the meaning of each directive speech act sentence uttered by Aladdin in the Aladdin 2019 film, being alert to know the implied meaning of the directive contained in the film, after watching the film. from the beginning to the end of the

author's story with the concept of Charles w. Kreidler and situations that occur in situations and contexts that occur in the story line. From this research data shows that Aladdin is more dominant in using command sentences, namely as much as 50% and the most appropriate is sentence sequences as much as 7%. which means that it shows the bossy nature of Aladdin but does not have the authority to be obeyed by his listeners, while the least sentence is an order showing that Aladdin uses the word only when it is time for him to become a prince who has the authority to be obeyed by all the people he has sent.

## **B. Suggestion**

After concluding the result of the research, the researcher would like to propose some suggestion to the following:

1. For the Teachers

For teachers, the writer suggests using the 2019 Aladdin film as learning material about folklore and as a source of learning media to avoid boredom during the learning process.

## 2. For the Students

For the students, the writer suggests to watch this movie in order to enrich the vocabulary especially about directive speech acts and the students can learn about culture and folklore

## 3. For the Others Researchers

For the next researchers who are interested in film research Especially directive speech acts, they can use this research as a reference to facilitate them in conducting research. This research is expected to provide information about the types directive speech act
