

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

Based on the result of the data analysis in the research.

The researcher conclude that:

1. There are students problems in learning reading to look for the determining idea of the text, the students limited vocabulary, the students cannot understand every sentence in paragraph, the students have difficult when make inference and they are confused in pronouncing the word.
2. The researcher found the cause of students problem in comprehending English reading text in period of Covid-19 pandemic. There are: learners' background, teaching approach, Related to the working relationship between teacher and students, within students and learners environment; school environment, home environment, social environment. Based on the explanation above, the researcher can conclude that students are lazy to read

English textbook. And then the students do not understand the material what the teacher explain. Moreover, the students interacted with the teacher when learning reading during the Covid-19. When students study at home students feel unfocused and distracted. In addition, when the learning process at home the students lack of parental control.

3. There are students effort to solve their reading problems such as the students ask a lot of friends so as not to get confused and memorize vocabulary to make it easier to understand the meaning of words and contents in a text. Read the text with a dictionary and Google translate the text in order to know and understand the contents of the text.

## **B. Suggestion**

1. Based on the researcher finding and discussion, the researcher would like to give some suggestion as follow: For the Teacher

The teacher must make the media attractive so the students easily understand the material presented by the teacher. The teacher should teach the vocabulary before learn reading a text so the students find it easier to understand the contents of the text. And the teacher must explain in more detail about achievement in learning reading comprehension.

2. For the Students

The students must practice English textbook based reading more diligently so that it is easy to pronounce a words. In addition, the students must memorizing vocabulary.

3. For the Other Researchers

The researcher hopes that the other researchers can investigate more deeply, because the researcher are aware that there are far perfect
