

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on research problem “How is the students’ writing skill by applying social media Facebook?” the writer concluded as follows :

1. It is provable by students’ participation from Non English Education Department after this research conducted, the participant were more active in writing on their social media facebook. All participant from Non English Education Department assumed using facebook media as a tool to develop writing skill is very nice and can improve their writing activities. But, all of them just not confident to show their writing on their social media facebook .
2. As long as conducting the data. Some participant always active in writing on their social media facebook. But, there is a student who does not write on her social media facebook in the appointed time.

B. Suggestion

Based on this research, the researcher would give some suggestion, as follows:

1. To the Participant

Using facebook as media to develop students writing skill could be done everywhere, and anywhere. Because, in this millennial era all person can not be far from gadget. Then, all participant can express their writing by applying social media facebook. Hopefully, with applied social media facebook that researcher given could be used as innovative technique for developing their writing skill

2. For other researcher

The researcher hope from applied social media facebook can develop student writing skill. Then the researcher suggests that the next researcher can find other technique to develop student writing skill.
