CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

After conducting several stages of data collation, the data have been analyzed by the researcher and made the conclusion below:

1. The effectiveness of Voice Note Feature on WhatsApp Messenger in enhancing students' speaking skill are being seen in several aspects. There are grammar, pronunciation and vocabulary. The data told us that the students tend to have a good vocabulary but they still had big obstacle in grammar and pronunciation. For vocabulary aspect, most of the students have high good skill. It was looked from their effort when they speak and in speaking class. But in grammar aspect get pretty good improvment, it seems when speaking. And for pronunciation aspect, students get pretty good improvement also. Most of students did much wrong grammar and pronunciation aspect.

   Those indicate the proof of this research that vocabulary aspect have high improvements while grammar and pronunciation has pretty good improvement. So, to conclude from 10 students of elevent grade at SMA Mathla'ul Anwar

Menes academic 2020-2021. There were 48 % students have good deal on grammar, 52 % students have good deal on pronunciation and 72% students have good deal on vocabulary.

2. The problems faced in enhancing students' speaking skill using Voice Note Feature on WhatsApp Messenger are grammar, pronunciation and vocabulary problems. Grammar problems are seen on Subject+Verb Agreement, tenses and Passive/Active Voice aspects. While pronunciation problems are seen on vowel sounds, diphthong, consonant sounds, cluster, and silent letter aspects. And vocabulary problems are seen on Word choice, word order, Reduced and added letter, and speaking in bahasa aspects.

B. Suggestion

The result of this study is aimed to give suggestion for following involvement:

1. For students, speaking is a skill needed practice. Therefore students have to practice in a fun way and students have to fight on learning of basic speaking.

2. For teacher, teacher should have a fun media or a fun way on teaching.

3. For school. School should be smart school on searching a fun media whice students like to learn.
