

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter deals with the conclusion and suggestion related to research findings and discussion. So, the researcher will explain the conclusion of the research problems and suggestion to the teacher and for the further researcher.

A. Conclusion

Based on the result of the study, the researcher found several strategies used by the teacher to improve students' self-confidence in speaking English at Mts. Al-khairiyah Pakuncen, how the strategies are used to improve self-confidence by the teacher in learning speaking English. Can be concluded that:

From the result of data obtained in the field through direct observation and interview with an English teacher at second grade at Mts. Al-khairiyah Pakuncen to know the strategies used by the teacher to improve students' self-confidence in speaking English, the researcher found several strategies used by the teacher namely conversation, task repetition, presentation and storytelling. Those strategies used by the teacher because those strategies get easy to practice and based on handbook. Besides, some students get

difficulties to practice there are worry, shy, anxiety, and not confident to speak English. Although, the teacher often gave motivations to students can self-confidence in speaking. In addition, the teacher explained each strategies used to improve students' self-confidence in speaking English through interview so that students can improve their self-confidence in speaking English because each student's have different abilities.

B. Suggestion

Based on the findings and discussion, many aspects that affect strategy such as teacher, school, and students. The researcher give more detail suggestion as follow:

1. Teacher

Teacher suggested to have more interest strategies in improving students' self-confidence in speaking. The teacher also must know the character each students in advance in order to choose what strategies used to improve students' self-confidence in learning process in order to be able to be effective.

2. For the next researcher

For the next researcher who interested to taking up research related to this paper, the researchers can to do observation in other skill of language, reading, listening, and writing. Moreover, the researcher hopes to tehe next researcher can conducted in urban or suburban areas.
