## ACKNOWLEDGMENT

*In the name of Allah, the Most Merciful, the Most Gracious, and the Most Compassionate.*

There are no precious words to be said, but all praises are to Allah, the almighty God, who has sent Muhammad, peace be upon him, to be His prophet and messenger for people all over the world. The writer realizes and feels very sure that without His blessing, mercy, and guidance, it would be possible for the researcher to finish the paper.

The researcher would like to profound gratitude to:

1. Dr. H. Wawan Wahyudin, M.Pd. as the Rector of State Islamic University of Sultan Maulana Hasanuddin Banten.
2. The Dean of Faculty of Education and Teacher Training, Dr. Nana Jumana, M.Ag.
3. The Head of English Department, Dr. Hj. Anita, S.S., M.Pd.
4. As'ari, S.S, M.Si., the first advisor; Hj. Eulis Rahmawati, M.Pd., as the second advisor, for the correction and beneficial criticism.
5. Beloved family, especially her parents, H. Oyok Saefudin and Subihat, for their patience and support of the researcher in her life.
6. All the lecturers in English Education Department and all the staff.

Last but not least, she wants to thank herself for believing in herself, never quitting for doing all this hard work, and always learning from experience. Furthermore, she is very thankful to SMPN 1 Pandeglang, who has given the researcher permission to conduct the research. Without their patience, guidance, and cooperation, this thesis could never have been written; all of those who helped her are not mentioned personally here.

## ABSTRACT

**Sonia Oktaviani.** 181230145. 2022. The Implementation of Clarisketch Learning Media in Students Speaking Skills (A *Quasi-Experimental Research at the first Grade of SMPN 1 Pandeglang*).

This research aims to investigate the effect of using clarisketch learning media on speaking skills in the first grade of SMPN 1 Pandeglang. This study has two research questions, they are: 1) How is the students' ability speaking skills? 2) How is the effect of using Clarisketch learning media on speaking skills? This study used a quasi-experimental study involving two classes as the sample. Moreover, the research design of this study consists of pre-test, treatment, and post-test where VII C class acts as experimental class and VII D class acts as control class. To fulfill the purpose of this research, the researcher took 60 students in first grade as respondents. Then they were divided into two groups, experimental and control. In the process of treatment, the experimental group received clarisketch as learning media, while the control group received the conventional teaching. Based on the calculation by using t-test, this study showed that  $t_o = 18,11$  is higher than  $t_t = 2,39$ , in the degree of significance 1% = 2,39, and in the degree of significance 5% = 1,67.

Despite students' scores increasing and based on the process and result giving a significant effect, the average score of the experimental class does not reach the minimum completeness criteria for English Subjects in the 2013 curriculum is 77. it means that it was not effective use in speaking skills in the first grade of SMPN 1 Pandeglang because of other factors.
